

# **Boland Pest Control**

**Before/During and After Precautions**

- **Thank you for choosing Boland Pest Control to help you with the concerning pest problem.**
- **Kindly read sections below relating to the pest control service our well trained technicians will be performing at your premises to ensure effective and safe pest control.**

## **TREATMENT OF WASPS**

**European Wasp**

### **INITIAL TREATMENT**

**Please keep children and pets indoors whilst the treatments of wasps are performed and for at least a hour to 2 hours or until you notice less aggression from the wasps still roaming around.  
Your safety and comfort is very important to us.**

**All nests to be found will be treated, removed and destroyed.**

**All spray- able nesting surfaces will be treated for example: Eaves, roof hangers, purr lines, window sills and door frames.**

**Kindly refrain from opening widows and doors whilst Boland Pest Control are busy with treatment.**

### **FOLLOW UP TREATMENT**

**The follow up treatment will commence at least within 21 days and takes place at exactly the same way as the first treatment.**

**It is still advisable to please keep children and pets indoors whilst the treatments of wasps are performed.**

**Kindly refrain from opening widows and doors whilst Boland Pest Control is busy with treatment.  
Any new nests that are reachable will be removed and destroyed.**

**German Wasp**

### **INITIAL TREATMENT**

**Please keep children and pets indoors whilst the treatments of wasps are performed and for at least a hour to 2 hours or until you notice less aggression from the wasps still roaming around.  
Your safety and comfort is very important to us.**

**The ground/lawn area will be treated with a spraying method.**

**It is 100% safe for children and pets to play on ground/lawn areas within a hour's time.**

**Should you wish to water the lawn, it is preferred to do so only 2 hours after the treatment.**

### **FOLLOW UP TREATMENT**

**The follow up treatment will commence exactly the same as the first treatment within at least 14 days.**

**THANK YOU FOR PARTNERING WITH US - TAKING CARE AND PROTECTING OUR HONEY BEES.**
